Customer No. 53953

### Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently amended) A method performed by a computer system, comprising:  
storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of a ~~hardcopy version of the paper~~; and  
in response to content of a first portion of the likeness, forming a hyperlink reference and embedding the hyperlink reference within the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content ~~first portion of the likeness~~ is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location ~~page number~~ at which the second portion of the likeness is located within the paper; and a phrase that indicates the location ~~title of the second portion of the likeness~~.

23. (Cancelled).

24. (Cancelled).

25. (New) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

26. (New) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

27. (New) The method of claim 1, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

28. (New) The method of claim 1, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

29. (New) The method of Claim 1, wherein the electronic version is a first electronic version of the paper, and comprising:  
translating a second electronic version of the paper into the first electronic version.

30. (New) The method of Claim 1, and comprising:  
highlighting the hyperlink reference.

31. (New) The method of claim 1, and comprising:  
on a first date, receiving a watch list term that is specified by a user;  
receiving the electronic version of the paper on a second date after the first date, and  
searching the electronic version for the watch list term, without the user specifying the watch  
list term after the first date, and without the user initiating the searching after the first date;  
and  
outputting a result of the searching for display on the display device.

32. (New) The method of Claim 31, and comprising:  
in response to a selection of the result, displaying a third portion of the likeness on the  
display device, wherein the watch list term is located in the third portion.

33. (New) The system of claim 8, wherein the content is at least one of the  
following: a term that indicates a page of the location at which the second portion of the  
likeness is located within the paper; and a phrase that indicates the page.

34. (New) The system of claim 8, wherein the content is at least one of the  
following: a term that indicates a page number of the location at which the second portion of  
the likeness is located within the paper; and a phrase that indicates the page number.

35. (New) The system of claim 8, wherein the content is at least one of the  
following: a term that indicates a title of the location at which the second portion of the  
likeness is located within the paper; and a phrase that indicates the title.

36. (New) The system of claim 8, wherein the paper is at least one of the  
following: a newspaper; a magazine; and a journal.

37. (New) The system of Claim 8, wherein the electronic version is a first electronic version of the paper, and wherein the computing device is for:  
translating a second electronic version of the paper into the first electronic version.

38. (New) The system of Claim 8, wherein the computing device is for:  
highlighting the hyperlink reference.

39. (New) The system of claim 8, wherein the computing device is for:  
on a first date, receiving a watch list term that is specified by a user;  
receiving the electronic version of the paper on a second date after the first date, and  
searching the electronic version for the watch list term, without the user specifying the watch list term after the first date, and without the user initiating the searching after the first date;  
and  
outputting a result of the searching for display on the display device.

40. (New) The system of Claim 39, wherein the computing device is for:  
in response to a selection of the result, displaying a third portion of the likeness on the display device, wherein the watch list term is located in the third portion.

41. (New) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

42. (New) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

Serial No.: 09/690,199

Docket No. 1005.7  
Customer No. 53953

43. (New) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

44. (New) The computer program product of claim 15, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

45. (New) The computer program product of Claim 15, wherein the electronic version is a first electronic version of the paper, and wherein the computer program is processable by a computer system for causing the computer system to:  
translate a second electronic version of the paper into the first electronic version.

46. (New) The computer program product of Claim 15, wherein the computer program is processable by a computer system for causing the computer system to:  
highlight the hyperlink reference.

47. (New) The computer program product of claim 15, wherein the computer program is processable by a computer system for causing the computer system to:  
on a first date, receive a watch list term that is specified by a user;  
receive the electronic version of the paper on a second date after the first date, and  
search the electronic version for the watch list term, without the user specifying the watch list term after the first date, and without the user initiating the searching after the first date; and  
output a result of the searching for display on the display device.

48. (New) The computer program product of Claim 47, wherein the computer program is processable by a computer system for causing the computer system to:  
in response to a selection of the result, display a third portion of the likeness on the display device, wherein the watch list term is located in the third portion.
